

How to Edit a Photo in Adobe Photoshop (Beginner Guide - Revised)

These revised instructions include clearer step separation and visual references to help beginners follow along more easily.

- 1 Open Adobe Photoshop on your computer.
- 2 Click "File" in the top menu.
- 3 Select "Open."
- 4 Choose the photo you want to edit from your computer.
- 5 Click "Open."
- 6 Locate the left toolbar and select the "Crop Tool."
- 7 Drag the crop handles around the part of the image you want to keep.
- 8 Press the "Enter" key to apply the crop.
- 9 Click "Image" in the top menu.
- 10 Select "Adjustments."
- 11 Click "Brightness/Contrast."
- 12 Adjust the brightness slider to change lighting.
- 13 Adjust the contrast slider to change light/dark differences.
- 14 Click "OK."
- 15 Click "File" in the top menu.

- 16 Select "Save As."
- 17 Choose a location on your computer.
- 18 Type a name for your edited image.
- 19 Click "Save."
